

Bay Lake

Buoy

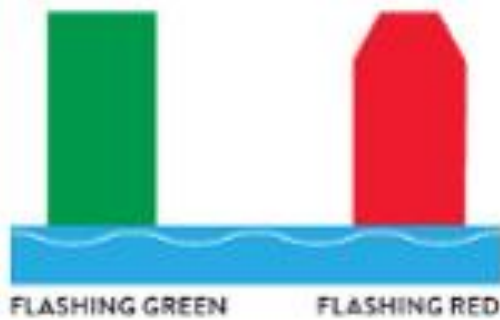

Basics:

Our Channel Markers

Bay Lake

Channel Marker Buoys

- All-green and all-red companion buoys indicate that the boating channel is between them.

The "flow" in Bay Lake is basically from the primary inlet in Hunter's Bay to the primary outlet in White Hawk Bay. So when you're traveling toward Hunter's Bay you're going "upstream".

- Red buoy is on the right side of the channel when facing upstream.
