

## **SEEKING VOLUNTEER BOAT INSPECTORS**

*With our Zebra Mussels infestation likely to expand and the unknown effect of Covid-19, our 2020 summer will be unlike any other. Unfortunately, a number of other invasive species are threatening MN lakes. Starting in early May, BLIA pays for DNR trained inspectors to check incoming and departing boats at the public access.*

*When DNR inspectors cannot be present, we depend on a small group of Bay Lakers volunteers to fill in. Shifts are typically 2 hours and it feels good to be helping protect the lake. If interested, contact Sandy Johnson at [sanderooj@msn.com](mailto:sanderooj@msn.com) or 218-527-0063.*
