

## **\*\*\*High Water Alert\*\*\***

*Greetings Bay lakers,*

We've received nearly 7 inches of rain this month, most of that in the past 10 days. Water levels in the lake are very high and some docks are nearly submerged. I am hearing from BLIA members who are concerned about damage to their lakeshore and equipment due to boat wakes with the busy holiday weekend approaching.

Please be mindful of your wake during this time and remember that under State law you are responsible for any damage caused. Newly arriving cabin guests or renters may be unaware of high-water conditions and related concerns, so please advise them.

Be especially mindful of the "No Wake" zones in the two narrows, where high water and heavy traffic exacerbates the potential for damage.

As a reminder, we typically see increased Water Patrol presence over summer holidays and they will issue citations for wake violations.

On behalf of all BLIA members, I thank you for your cooperation and hope you have a fun and safe 4<sup>th</sup> of July!

**Terry Coss, BLIA President**
