These are hard to see but it's worth trying because this is our most complicated area.

This picture is looking south between Isle of Pines (left) and Content (right) with Church Island in the background.

***Go between the buoys marking the points and the buoys***

***marking the rocks & shallow area.***

The numbers on this depth map are upside down but you can see the shallow area between the markers.

What you can't see are the rocks.
